PROFESSIONAL SUMMARY

- B.Tech Computer Science Engineering graduate skilled in **Java, OOP, DSA, and DBMS**, building scalable backend systems with **Spring Boot, Spring Security, Hibernate, and REST APIs**. Experienced in designing relational schemas in **MySQL/MongoDB** and documenting APIs with **Swagger/Postman**, with a strong focus on layered, modular architecture and debugging. Seeking to contribute as a **Java Backend Developer / Software Engineer** in a product-focused engineering team.

EDUCATION

KL University

2022 – 2026

B.Tech - Computer Science Engineering | CGPA: 9.3/10

Hyderabad, Telangana

PROJECTS

Online Banking Management System | [Spring Boot](#), [Hibernate](#), [MySQL](#)

Jan 2025 – Mar 2025

- Engineered a secure banking backend in **Spring Boot** supporting account creation, fund transfers, and balance management.
- Implemented **role-based authentication and authorization** using Spring Security.
- Designed normalized **MySQL** schemas with optimized queries for faster data retrieval.
- Applied **layered (Controller-Service-Repository) architecture** for modularity and maintainability.
- **Debugged** transaction-handling logic to resolve edge cases and ensure data consistency.
- Exposed and documented **RESTful APIs** for scalable, future-ready integrations.

Hybrid AI Movie Recommendation System | [Python](#), [ML](#), [REST APIs](#)

Jul 2025 – Sep 2025

- Built a **content-based recommendation engine** using cosine similarity across **5,000+ movies**.
- Benchmarked **collaborative filtering** models against the content-based approach for accuracy.
- Achieved **82% recommendation precision** through feature engineering and model tuning.
- Integrated backend **REST APIs** for real-time movie search and personalized suggestions.

TECHNICAL SKILLS

Languages: Java, SQL, Python

Frameworks/Technologies: Spring Boot, Spring Security, Hibernate, Spring Data JPA, JSP, REST APIs, Microservices

Database: MySQL, MongoDB

Developer Tools: Git, GitHub, Docker, Maven, Swagger, Postman

Concepts: OOP, Data Structures & Algorithms, DBMS, System Design, Debugging

Cloud: Microsoft Azure (Fundamentals)

CERTIFICATIONS

- MongoDB Associate Developer Certification – data modeling, indexing, aggregation pipelines, and CRUD operations.
- GitHub Foundations Certification – Git, GitHub workflows, branching, collaboration, and GitHub Actions fundamentals.
- AWS Certified Cloud Practitioner Certification – cloud concepts, core AWS services, security, pricing, and billing.
- Microsoft Azure Fundamentals Certification – cloud concepts, Azure services, pricing, and governance.
- Automation Anywhere RPA Certification – bot creation and enterprise workflow automation.
